## Professional Summary

Motivated Software & Web Developer with hands-on experience in full-stack development using Symfony, React, and Spring Boot. Skilled in designing and implementing scalable, user-focused applications and responsive websites. Combines strong technical expertise with leadership, communication, and problem-solving abilities developed through international experience.

## Professional Experience

### Software & Web Developer – Freelancer

02/2024 – Present

- Design and develop responsive websites and full-stack applications using React, Symfony, and PostgreSQL.
- Collaborate with clients to deliver tailored web solutions with optimized performance and usability.
- Implement APIs, authentication systems, and version control workflows using GitHub.

### Software & Web Developer Intern – nvii-media GmbH, Halle (Saale), Germany

08/2023 – 02/2024

- Developed and configured a Symfony-based portal for client management and authentication.
- Participated in Agile sprints and code reviews to ensure maintainable, scalable solutions.
- Integrated backend APIs and optimized server-side performance.

### Lead Art Coordinator – Park West Gallery, Miami, USA

01/2003 – 09/2021

- Managed logistics for international art auctions and supervised a multicultural team.
- Streamlined coordination processes to improve operational efficiency.
- Developed leadership, communication, and project management skills.
